

# THE OILING OF AMERICA

How the Vegetable Oil Industry Demonized Nutritious Animal Fats  
and Destroyed the American Food Supply

A DVD presentation  
by Mary Enig, PhD & Sally Fallon Morrell

For fifty years, big business, government agencies and medical organizations have campaigned deceptively against animal fats, meat, eggs, butter and other nutritious, traditional foods, leading to huge profits from the sale of toxic margarine, shortenings and liquid vegetable oils, and the foods that contain them. Scientific data contradicting current anti-animal fat public health policy was suppressed and censored for many years. Dr. Enig and Sally Fallon Morell now tell you the truth about how that happened.

The Oiling of America will open your eyes to fraud and deception behind the lipid hypothesis of heart disease. Topics include:

- How scientists cheat in scientific studies
- Why cholesterol is not the cause of heart disease
- The dangers of cholesterol-lowering diets and drugs
- Why trans fatty acids and liquid vegetable oils are so dangerous to human health

DATE:

Friday, January 20th, 2012

DVD begins at 6:30 PM

Please come early.

LOCATION:

Market of Choice

67 West 29th, Eugene

Upstairs in the Community Room

Presented by The Eugene Chapter, WESTON A. PRICE FOUNDATION®
