Introduction to the Work of Weston A. Price:

By Sally Fallon Morell

Animal fats, properly prepared whole grains, enzyme-enriched foods and nourishing bone broths kept our ancestors healthy. Sally Fallon Morell, founding president of the Weston A Price Foundation author of *Nourishing Traditions*, explains why these are vital factors for maintaining good health today. This half hour presentation features Dr. Weston Price's unforgettable photographs of healthy traditional peoples, while Ms. Fallon Morell explains the underlying factors in a variety of traditional diets, which conferred beauty, strength and complete freedom from disease on so-called primitive populations.

Stay for a discussion afterwards with local Weston A. Price Foundation members.
